

CORNER MAGNETS

- Create 90° corners by holding from the outside, providing you with an unobstructed area for inside tack welds.
- One side corner "relief" provides clearance for tall lips.
- Use the outer edges of the Corner Magnet for setting up materials at 60°.

The compact and low profile Corner Magnet is ideal for light duty holding of stock.

Part No.	Description	Dimension (mm)	Max. Pull
MST327	Twin Pack 90° & 60°	83 x 95 x 16	

*Magnetic force is based on the longest side of Magnet with 10 mm thick steel.

⚠ Must be used for tack welding only and removed before completing weld. Avoid prolonged exposure of magnet to heat.

Magnet
at 90°.

Use the outer edges of the Corner
Magnet to hold stock at 120°.

Force (kg)	Weight (kg)
14	0.4

Magnetic products to heat sources of 176°F / 80°C.
